

Southern Ute Indian Tribe Department of Energy Proposed Maintenance Project Form

14929 Hwy 172 Ignacio, CO 81137

Complete boxes 1-5, add the map attachment, and email to Southern Ute Indian Tribe's Department of Energy (DOE) at maintenance@sudoe.us. This form is only necessary for maintenance work being done on Tribal Land. All work that takes place outside of the permitted area (area cleared for cultural and biological significance) of a well site or ROW is not considered maintenance and needs to go through the Tribe's PPN process. All stipulations associated with the original permit apply to maintenance work (i.e. archaeological monitoring, wildlife closures, etc.). A 5 day review period by other Tribal Departments may be necessary depending on the extent of the maintenance activities.

1. OPERATOR INFORMATION

Name of Operator _____	Operator # _____
Address _____	Phone _____
City _____ State _____ Zip _____	Mobile _____
Contact Person _____	Email _____

2. GENERAL INFORMATION AND MAP

Wellsite/Access Road	Facility	Right of Way
Name _____	API _____	Lease # _____
Legal Description _____ QTRQTR _____	Section _____	Township _____ Range _____
Latitude _____	Longitude _____	Invoice # _____

Attach an aerial map depicting general work area, specific areas of disturbance and access routes for equipment. The map is required.

3. MAINTENANCE ACTIVITIES

Tribal notification is required for the following activities:

- | | |
|--|---------------------------------|
| Construction or removal of perimeter fence | Culvert removal or installation |
| Pipeline maintenance | Other _____ |
| Work in drainage | |

DOE does not need to be notified for routine maintenance as defined in Section 5.4 of the Exploration & Production Operator's Manual, any disturbance that takes place on the graveled pad surface or access road (i.e. blading or pad grading), or corrective actions associated with a DOE Inspection Report.

Work Description

Approximate disturbance

Acres _____ or Sq. Feet _____

Type of equipment performing work

Tentative work dates (if dates change please inform DOE)

Start Date _____ End Date _____ Aproximate Time of Day _____

4. ADDITION OR REMOVAL OF EQUIPMENT

Tribal notification is required for the following activities:

- | | |
|---------------------------------------|---|
| Engine upsize | Pumpjack removal/addition |
